## **GETTING STARTED**

When the countdown commences, highlight the applicable chip value in the right top hand corner. Once the chip is highlighted, you can place it anywhere in the betting area. Complete all betting before the countdown reaches zero. To cancel a bet, press the 'cancel' button.

---

## **PLAYING THE GAME**

You and each other player will be dealt two cards face up, with the dealer being dealt one card face up on the initial draw. Once this has been completed, the player sitting on the right most side of the dealer display will be prompted to play first. Options include 'Hit', 'Stand;' and in some instances 'Double Down' and 'Split' if the option is available. These functions are available from the touch screen or button panel.

---

## **RESULT**

Once all players have played, the dealer will play the game out and players are paid accordingly. If the dealer draws an Ace on her first card, you will be permitted to bet on 'Insurance'. If the dealer then has Blackjack, the game will end immediately.
