How to Play Rapid Roulette

Now you can enjoy the excitement of a Roulette game in comfort, in front of your own terminal. The Rapid Roulette terminal replicates the Roulette layout and a touch screen allows you to place your bets just like placing chips on a table.

How does it work?

A camera positioned above a Roulette wheel transmits the action live to your terminal. When the ball drops into the wheel, sensor-heads detect the winning number, which is then transmitted to your terminal.

Is playing on a Rapid Roulette terminal the same as Roulette at a gaming table?

Yes, playing a Rapid Roulette terminal is exactly the same as playing at a Roulette table. The only difference is you place your bets on a screen. The odds are exactly the same and the result is decided by the ball coming to rest in the wheel.

Are there any special features?

There are many special features on a Rapid Roulette terminal such as:

- The ease and comfort of your own terminal.
- No pushing from other players trying to reach bets at the other end of the table.
- An exciting array of "Set Bets".
- Replay last bets option.
- A clear, easy to read, easy to use screen.
- Visual display of the winning numbers.
- Easy cash out.

How do I collect my winnings?

When you are ready to leave the game simply press the "cash out" button and you will be issued with a payment voucher which you take to the cash desk. The cash desk staff will verify the voucher and pay you in cash.

How do I know when to bet?

The screen will alert you to start betting when it displays a timer in the corner of the screen. When the timer reaches zero the screen will show "no more bets" and the game will be locked out. You will not be able to place or remove wagers at this stage.

Part of your screen display will show a live video display of the ball dropping in the wheel. When the ball drops, the winning number is highlighted and all winning bets are paid. The terminal is now ready to take bets for the next spin.

How much can I play?

You can play as much or as little as you like within the prescribed limits. You nominate the value of your chips and simply touch your preferred betting area once to play one chip, twice to play two chips etc.

You may increase the value of the chips you are placing by touching the chip increment area and selecting the value of the chip you wish to place.

Regular Bets

The Rapid Roulette Terminal also offers a "Recall" option that allows you to play exactly the same bet spin after spin with one touch of the screen. Simply touch the "Recall" area on the screen and your bets from the previous spin will be instantly replayed.

Set Bets

The Rapid Roulette Terminal also features a range of "Set Bets" that are a popular feature of Roulette in European casinos. Simply touch the area marked "Race Track" and you will access a screen displaying the following bets:

- Tiers - 6 piece bet. One piece on each of the splits 5/8, 10/11, 13/16, 23/24, 27/30, and 33/36.
- Grand Series - 9 piece bet. One piece on each of the following betting areas 4/7, 12/15, 18/21, 19/22, 32/35, and 2 pieces on each of the following betting areas, 0/2/3 and 25/29.
